

April 26th, 2018

Dear Customers

Saison Information Systems Co., Ltd.
HULFT Division

Announcement of Maintenance: HULFT-WebConnect

We schedule a maintenance operation on HULFT-WebConnect as described below.
We apologize for the inconvenience and thank you for your patience and understanding.

1. Summary

We will perform a settings change in the database server and a security update for application servers that are internally used by the HULFT-WebConnect service.

2. Schedule

From May 28th, 2018 (Monday) 02:00 to May 28th, 2018 (Monday) 03:00 JST

3. Scope of Impact

File transfers might fail because connections of HULFT-WebConnect Agent (hereinafter, referred to as "Agent"), HULFT-WebConnect CLI, or Data Transfer Site to HULFT-WebConnect might be instantaneously disrupted.

In some installation environment, Agent might be suspended after a reconnection to HULFT-WebConnect fails. Such a retry of connection to HULFT-WebConnect occurs after Agent is disconnected due to instantaneous disruption.

Note: Please do not execute a file transfer during the maintenance time.

Note: When Agent is suspended during the maintenance time, please restart Agent.
