Dear Customers

Saison Information Systems Co., Ltd.
HULFT Division.

Announcement of Maintenance: HULFT-WebConnect

We plan to perform maintenance on HULFT-WebConnect as described below.
We apologize for the inconvenience and thank you for your patience and understanding.

1. Summary

We will perform a level upgrade from Ver.2.1.0 to Ver. 2.2.0.

2. Schedule

From December 11th, 2017 (Monday) 04:05 to December 11th, 2017 (Monday) 05:15
JST

Note:

The total maintenance time has been changed from 55 minutes to 70 minutes.

[Schedule before the change]

From December 11th, 2017 (Monday) 04:05 to December 11th, 2017 (Monday)
05:00 JST

Reason of the change:

The total maintenance time has been extended to increase resource for both the
following endpoints in Tokyo Region:

service1.tokyo.webconnect.hulft.com

service2.tokyo.webconnect.hulft.com

3. Scope of Impact

Delay or instantaneous disruption on the HULFT-WebConnect website might occur
during the maintenance.

File transfers might fail because a connection of HULFT-WebConnect Agent
(hereinafter, referred to as "Agent"), HULFT-WebConnect CLI, or Data Transfer Site
to HULFT-WebConnect might be instantaneously disrupted.

In some installation environment, Agent might be suspended after a reconnection to
HULFT-WebConnect fails. Such a retry of connection to HULFT-WebConnect occurs
after Agent is disconnected due to instantaneous disruption.

Note: Please do not execute a file transfer during the maintenance.

Note: When Agent is suspended during the time of the maintenance, please restart Agent.

4. New Functions You Can Use

Listed below are the new functions that you can use after this maintenance.

For details on each function, please see *Online Help* of HULFT-WebConnect.

- Function to limit connections by IP address
- Function to register secondary accounts that can be used only for performing file transfer in Data Transfer Site
