Notice of HULFT-WebConnect Notification Email Error

Dear Customers,

This is to inform you that we have detected the following error in HULFT-WebConnect.

1. Phenomenon

The email normally sent from HULFT-WebConnect when you change an account ID or login password, to notify you that your account information has changed, is not sent.

2. Time of occurrence

February 18, 2019, from 2:59 a.m. (JST)

3. Cause

There was a mistake in the function parameters for the email notification that HULFT-WebConnect sends when you change your account information.

4. Current state

Currently, with the exception of the abovementioned function, the functions and file transfer functions of the HULFT-WebConnect service can be used normally.

5. Follow-up response

We plan to have this problem fixed by February 25, 2019, 9:00 a.m. (JST).
