Customer Service Center

About Our Product Support Due to the End of Support for Internet Explorer 11

Thank you very much for using our technical support service. We would like to inform you of the impact of the end of support for Internet Explorer 11 on HULFT and related products and our response policy.

For each product, we have listed the latest version supported.

■ HULFT8

HULFT8 Script Option is now compatible with browsers other than Internet Explorer with version 8.5.1.

■ HULFT-WebFileTransfer

The site is compatible with browsers other than Internet Explorer. Please check the compatible browsers and use an alternative browser.

■HDC-EDI Base/HDC-EDI Manager

No other browser can be used except Internet Explorer.

Both products are scheduled to support Edge and Google Chrome in the next release and are scheduled for release in April 2022.

We will also support Edge's "Internet Explorer (IE) mode" for the released versions of our products, which we are currently providing support services, after verifying their operation.

■Released Versions of Internet Explorer (IE) Mode Support Status and Schedule

• HDC-EDI Manager

Ver.2.7.0 ~ Ver.2.7.4 January 2022 Support Completed

Ver.2.5.0 ~ Ver.2.6.2 April 2022 Scheduled for Support.

• HDC-EDI Base

Ver.4.0.0 ~ Ver.5.3.0 January 2022 Support Completed

■iDIVO

iDIVO Manager Client (Web) is not compatible with browsers other than Internet Explorer. There are no plans to add support for alternative browsers. Please use the iDIVO Manager Client (Windows), which does not use a browser.

■HULFT-WebConnect

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■HULFT IoT

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■DataSpider Servista、DataSpider Servista with Software Protection

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■DataSpider Cloud

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■ PIMSYNC

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■ DataSpider BPM

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■ Thunderbus

The site is compatible with browsers other than Internet Explorer, so please check the compatible browsers and switch to an alternative browser to use the site.

■ How to Check for Supported Browsers

Please refer to the following website for information on compatible browsers. For more details, please refer to "Operating Environment" below:

【Operating Environment】

<https://www.hulft.com>

Select the [Products] menu at the top of the screen, and then select [Operating Environment] from the menu that appears. Select the product name from the [Search by product], and then select the OS and version you are using.
