

HULFT DataCatalog Standard Price List

License Policy

The customer who is the licensee (one company or one equivalent organization) may use the product in one of the following ways: (1) internal use, (2) use for group companies, or (3) service use. For details on types of use, please see "License Policy" on HULFT.com.

If the product is used jointly by multiple group companies on or after April 1, 2021, doubling or more of the standard price may be applied.

If the product is used on the service platform for providing services to multiple service users on or after April 1, 2021, tripling or more of the standard price may be applied.

License Scheme

The license scheme has a price structure that combines a server license with a user ID license.

Server licenses are charged by the number of physical CPUs in the server machine that is installed with HULFT DataCatalog.

* When used on a virtual environment, you will be charged for the number of cores and if the number of cores in a cloud service is not clear, you will be charged for the number of vCPUs.

License Fee/Software Support Service Fee

(End user price/without tax)

Name	Description	License Fee *1	Annual Support Fee *2	Monthly License & Support Fee *3
Main Unit for One CPU on Server	Basic package when HULFT DataCatalog is purchased. - When used on a physical environment, this license is applied to the first CPU. - When used on a virtual environment, this license is applied to a CPU that has up to four cores. A license for 10 user IDs is included.	\$28,800	\$5,800	\$1,700 (Monthly)
Additional One CPU	This license is applied to the second and subsequent CPUs in a machine equipped with multiple CPUs. - When used on a physical environment, this license is applied to the second CPU. - When used on a virtual environment, this license is applied to the fifth and subsequent cores (equivalent to adding four cores). A license for user IDs is not included.	\$24,000	\$4,800	\$1,400 (Monthly)
Additional 10 User IDs	This license is used to add users in units of 10 user IDs for creation and access to HULFT DataCatalog. (The Main Unit for One CPU on Server license includes a license for 10 user IDs as standard.)	\$1,900	\$390	\$120 (Monthly)

(Notes)

*1 Since the number of cores assigned to HULFT DataCatalog is up to four cores in a virtual environment, please purchase an additional CPU license on a four core basis if the number of assigned cores is five or more.

*2 The annual support service must be purchased at the same time as the license. If it is purchased at a later date, the support service will start on the first day of the month following the product shipping date. If the start date of the already purchased service differs from the period of the added CPU or user ID license that is purchased separately, the difference is adjusted on a monthly basis according to the start date.

*3 Software support service is included during the period of use. There are no restrictions for the period of use. Support in English is available by email or by phone (no extra charge).

* Sales tax is not included in the price list. The total price is subject to sales tax.
